High-flex Outdoor Patch Cables Low Smoke Zero Halogen

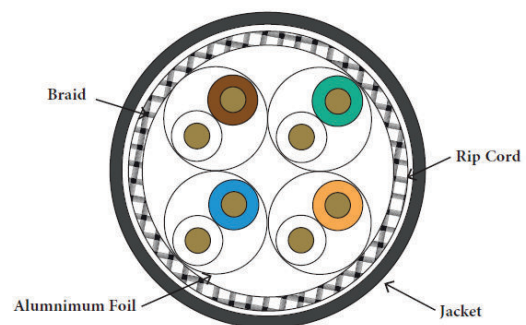

Cat6a High-Flex Outdoor Network Cable, with a compact plug and boot, are designed to be used in 10-Gigabit applications and can run all frequencies from 1 to 500 MHz.

The Patch cord offers flexible, high-density patching and is designed for industrial or outdoor environments and is the installers choice due to the Slim RJ45 connector witch suits in devices with a very high port density.

The cables shielding makes it Ideal for protection against electromagnetic interference thanks to pair screening with aluminum compound foil and copper braiding as overall screening of the Highest quality, the double screening ensures high transmission reliability in areas with electromagnetic interference.

The wires are wrapped in a PUR halogen free Jacket ideal for harsh areas with great benefits of UV and oil resistance suitable for Voice, Data, Video applications.

Length	MPN	Length	MPN
1m	LVN601SOUT	15m	LVN6015SOUT

- Hazardous substances-Free: Directive 2011/65/EU + 2015/863/EU
- PUR, Halogen-free Jacket
- Great Flexibility
- Chemical & Hydrolysis resistance: DIN53504
- Oil resistance: EN 60811-2-1
- Fluke DSX-8000 Channel Compliant
- AWG 26
- Cable diameter 6mm
