

ILLUMINATED RJ45 · CAT6 U/UTP · 10 GIGABIT

LIGHTFLEX™ SERIES

The patch cable that shows you where it goes. A **transparent RJ45 housing carries the port's own light out to the plug**, so link status, cable path and network segment are readable from the front of the switch — no toner, no label reader, no second technician at the far end of the building.

WHY SPECIFY LIGHTFLEX™

01 IDENTIFY A PORT AT A GLANCE

LightFlex™ illuminated connector technology turns every patch cord into its own indicator. Ports, cable paths, segments and connected devices are readable directly at the switch — no guesswork, and no unplugging the wrong link to find out.

02 FASTER MOVES, ADDS AND CHANGES

Tracing a cable normally costs two people, a toner, or a leap of faith. Here it is a visual check — which is exactly where the hours are saved: first install, routine maintenance, and fault-finding while the line is down.

03 CAT6 PERFORMANCE UP TO 500 MHZ

Supports 10 Gigabit Ethernet on high-quality oxygen-free copper conductors. The diagnostics are built into the connector, not paid for with throughput.

04 SLIM, SOFT AND HALOGEN-FREE

A slim body in a supple TPE jacket: takes a tighter radius than PVC, stays where it is laid, and dresses a full panel without a fight. Halogen-free for occupied buildings, risers and technical rooms.

TRANSPARENT RJ45 HOUSING · WHITE TPE JACKET

SPECIFICATION	
Category	Cat6
Screening	U/UTP
Bandwidth	Up to 500 MHz
Application	10 Gigabit Ethernet
Conductor	Oxygen-free copper
Jacket	TPE, halogen-free
Connectors	2 × illuminated RJ45
Colour	White

BUILT FOR ENTERPRISE · SURVEILLANCE · AV · DATA CENTRE

ORDERING INFORMATION

LENGTH	PART NUMBER	DESCRIPTION
0.15 m	LV-LIGHT-UTP60015W	LightFlex™ Cat6 U/UTP, white, TPE halogen-free
0.5 m	LV-LIGHT-UTP6005W	LightFlex™ Cat6 U/UTP, white, TPE halogen-free
1 m	LV-LIGHT-UTP601W	LightFlex™ Cat6 U/UTP, white, TPE halogen-free
2 m	LV-LIGHT-UTP602W	LightFlex™ Cat6 U/UTP, white, TPE halogen-free
3 m	LV-LIGHT-UTP603W	LightFlex™ Cat6 U/UTP, white, TPE halogen-free
5 m	LV-LIGHT-UTP605W	LightFlex™ Cat6 U/UTP, white, TPE halogen-free
10 m	LV-LIGHT-UTP610W	LightFlex™ Cat6 U/UTP, white, TPE halogen-free

Part numbers follow the LV-LIGHT-UTP6<length><colour> convention — confirm the current length range, colours and stock position with your Lanview distributor before quoting. Note that 10 Gigabit over Cat6 is a reach-limited application; for full-length 10G channels, pair LightFlex patch cords with a Cat6A permanent link. Specifications are indicative and subject to change without notice.
